EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In paragraph 015:

Line 1: delete **"FIG. 3 is an elevational view"** and substitute **--FIGS 3 and 3a are elevational views--**.

In paragraph 029:

Line 6: after **"114"** insert **--or threads 114a--**.

Claims 1, 2, 4-8, 20, 26-30 and 34-36 are allowed.

It is noted that the above amendments to the specification were needed as the Applicant has added new Figure 3a with reference character 114a but did not amend the specification accordingly.

The following is an examiner's statement of reasons for allowance: None of the prior art, alone or in combination, teaches the Applicant's invention of a writing instrument as claimed. In regard to claim 5, it is here noted that as the Kageyama reference is directed toward ease of assembly of the writing instrument, it is the Examiner's position that it would not have been obvious to ultrasonically weld the end plug 19 to the opening in the barrel.
